A Spirituality Named Compassion

Matthew Fox

A Spirituality Named Compassion Matthew Fox

- Fox marries mysticism with social justice, leading the way toward a gentler and more ecological spirituality and an acceptance of our interdependence
- A road map to fulfillment for the coming century

In *A Spirituality Named Compassion*, Matthew Fox, the popular and controversial author, establishes a spirituality for the future that promises personal, social, and global healing. Using his own experiences with the pain and lifestyle changes that resulted from an accident, Fox has written an uplifting book on the issues of ecological justice, the suffering of Earth, and the rights of her nonhuman citizens.

Fox defines compassion as creativity put to the service of justice and argues that we can achieve compassion for both humanity and the environment as we recognize the interconnectedness of all things. Working toward the creation of a gentler, ecological, and feminist Christianity, Fox marries mysticism and social justice, emphasizing that as we enter a new millennium society needs to realize that spirituality's purpose is to guide us on a path that leads to a genuine love of all our relations and a love for our shared interdependence.
