Surgical Techniques in Orthopaedics and Traumatology: Pelvic Ring and Hip v. 6 Jacques DuParc

The celebrated "Surgical Techniques in Orthopaedics and Traumatology Series", published under the auspices of the European Federation of National Associations of Orthopaedics and Traumatology (EFORT), is now available as an 8-volume paperback set, allowing you to access the information you require, at the right price. In the 45 articles of this volume, 90 distinguished European specialists describe the techniques to manage fractures, dislocations, congenital anomalies and other pathologies affecting the pelvic ring and hip. Total hip replacement, revision surgery and amputation are covered. Variations, complications, clinical results and indications are discussed. The surgical techniques are described step by step and illustrated by more than 900 drawings and photographs.
