## **The Oxford Handbook of Theology, Sexuality, and Gender (Oxford Handbooks in Religion and Theology)**

*The Oxford Handbook of Theology, Sexuality, and Gender* presents an unrivalled overview of the theological study of sexuality and gender. These topics are not merely contentious and pervasive: they have escalated in importance within theology. Theologians increasingly agree that even the very doctrine of God cannot be contemplated without a prior grappling with each. Featuring 41 newly-commissioned essays, written by some of the foremost scholars in the discipline, this authoritative collection presents and develops the latest thinking in these areas.

Divided into eight thematic sections, the *Handbook* explores: methodological approaches; contributions from neighbouring disciplines; sexuality and gender in the Bible, and in the Christian tradition; controversies within the churches, and within four of the non-Christian faiths; and key concepts and issues. The final, extended section considers theology in relation to married people and families; gay and lesbian people; bisexual people; intersex and transgender people; disabled people; and to friends. This volume is an essential reference for students and scholars, which will also stimulate further research.
