Education for a Sustainable Future: A Paradigm of Hope for the 21st Century (Innovations in Science Education and Technology)

Education for a Sustainable Future: A Paradigm of Hope for the 21st Century (Innovations in Science Education and Technology)

This book illustrates how sustainability, information technologies, and envisioning the future can be effectively woven into an integrated educational experience. By understanding what it takes to build a sustainable community, students will develop the skills needed to engage successfully in a sustainable society. Using the real world as their classroom, they will participate in gathering and analyzing data, clarifying values, listening, speaking, thinking creatively, and making decisions about their community.
