American Diplomacy (Walgreen Foundation Lectures) George F. Kennan

Drawing on his diplomatic experience and expertise, George F. Kennan offers an informed, plain-spoken appraisal of United States foreign policy. His evaluations of diplomatic history and international relations cut to the heart of policy issues much debated today.

This expanded edition retains the lectures and essays first published in 1951 as *American Diplomacy, 1900-1950* and adds two lectures delivered in 1984 as well as a new preface by the author. In these additional pieces, Kennan explains how some of his ideas have changed over the years. He confronts the events and topics that have come to occupy American opinion in the last thirty years, including the development and significance of the Cold War, the escalation of the nuclear arms race, and the American involvement in Vietnam.

"A book about foreign policy by a man who really knows something about foreign policy."--James Reston,*New York Times Book Review*

"These celebrated lectures, delivered at the University of Chicago in 1950, were for many years the most widely read account of American diplomacy in the first half of the twentieth century. . . . The second edition of the work contains two lectures from 1984 that reconsider the themes of *American Diplomacy*"--*Foreign Affairs, Significant Books of the Last 75 Years*.
