This full-color manual is designed for students with minimal backgrounds in science who are pursuing careers in allied health fields. Designed to support the eleventh edition of *Hole's Essentials of Human A&P* by Shier, Butler, and Lewis, this manual contains 49 laboratory exercises and reports, which are integrated closely to the textbook. Exercises are planned to illustrate and review the anatomical and physiological facts and principles presented in the text and to help students investigate some of these ideas in greater detail.
