Black Genders and Sexualities (Critical Black Studies)

Black Genders and Sexualities provides a survey of new work by scholars who grapple with the ways gender and sexuality constellate with race. Cutting across the humanities and social sciences, and situated in sites across the black diaspora, the works collectively challenge notions that we are living in a post-racial age and instead argue for the specificity of black cultural experiences as shaped by gender and sex. The volume underscores the ways an array of violence impacts and shapes black life, while also testifying to the resiliency, creativity, and vitality of black people.
