High Strangeness is an enlightening attempt to weave together the contradictory threads of religion, science, history, alien abduction, and the true nature of political conspiracies. With thorough research and a drive for the truth, Laura Knight-Jadczyk strips away the facades of official culture and opens doors to understanding our reality. The Second Edition adds new material that explains the hyperdimensional mechanisms by which our reality is controlled and shaped by the 'alien' overlords. The self-serving actions of unwitting puppets - psychopaths and other pathological types - who may have no knowledge that they are being used, become the portals through which an agenda that is hostile to humanity as a whole, is pushed forward. High Strangeness takes the study of ponerology into a whole new dimension!
