**NASA/TREK: Popular Science and Sex in America** Constance Penley

This wry and highly readable investigation of the role of space travel in popular imagination looks at the way NASA has openly borrowed from the TV show *Star Trek* to reinforce its public standing. It also celebrates the work of a group of the show's fans who rewrite its storylines in porno-romance fanzines. Constance Penley advocates that scientific experimentation be accompanied by social and sexual experimentation, and devoted to exploring inner as well as outer space.
