An American Aristocracy: Southern Planters in Antebellum Philadelphia Daniel Kilbride

Placing class rather than race or gender at the center of this comparative study of North and South, Kilbride exposes the close connections that united privileged southerners and Philadelphians in the years leading to the Civil War. He finds that the bonds between these similarly educated and socialized groups to be so durable that they resisted sectional warfare. Kilbride notes that southern planters were drawn particularly to Philadelphia because of its proximity to the South and perception of the city as being untainted by northern radicalism. In addition, Philadelphia possessed well-regarded schools, prestigious intellectual societies, historical landmarks, and fashionable shopping districts. In the city's parlors, ballrooms, and classrooms, privileged northerners and southerners forged a republican aristocracy that ignored the Mason-Dixon line.
