ÉTICA A NICÓMACO - ARISTOTELES (Spanish Edition) ARISTOTELES

La Ética a Nicómaco es un análisis de la relación del carácter y la inteligencia con la felicidad. Aristóteles distinguía dos tipos de «virtud» o excelencia humana: moral e intelectual. La virtud moral es una expresión del carácter, producto de los hábitos que reflejan opciones repetidas. Una virtud moral siempre es el punto medio entre dos extremos menos deseables. El valor, por ejemplo, es el punto intermedio entre la cobardía y la impetuosidad irreflexiva; la generosidad, por su parte, constituiría el punto intermedio entre el derroche y la tacañería. Las virtudes intelectuales, sin embargo, no están sujetas a estas doctrinas de punto intermedio. La ética aristotélica es una ética elitista: para él, la plena excelencia sólo puede ser alcanzada por el varón adulto y maduro perteneciente a la clase alta y no por las mujeres, los niños, los «bárbaros» (literalmente, 'balbuceantes': significando los no-griegos) o «mecánicos» asalariados (trabajadores manuales, a los cuales negaba el derecho al voto).
